COMPANY OVERVIEW

At TechTie, we are redefining the landscape of workforce solutions through innovation, agility, and a deep understanding of evolving business needs. What began as a dynamic start-up has rapidly grown into a trusted industry leader, delivering measurable impact for clients across India.

We specialize in technology-driven staffing and managed outsourcing services, helping organizations unlock productivity, scale operations, and stay ahead of the curve in a fast-changing market. Powered by our AI-driven digital platforms and guided by deep domain expertise, we provide businesses with a future-ready workforce that adapts, evolves, and delivers.

Our commitment goes beyond staffing. We build long-term relationships, driven by integrity, innovation, and excellence. Our mission is to empower businesses to grow smarter, operate leaner, and achieve more—through people, technology, and transformation.

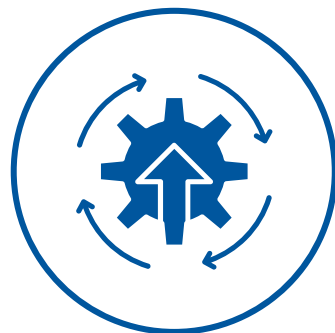

The Staffing Problem: Our Approach to Reliable Placement

Unstable Talent Pool and High Attrition Challenges

“Candidate dropouts and inconsistent performance after hiring result in operational delays and erode client trust.”

“Lengthy hiring processes delay staffing and reduce business efficiency.”

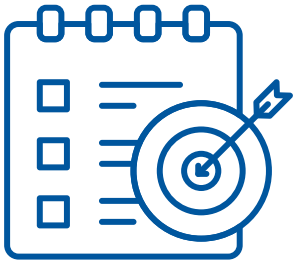

“Slow recruitment cycles lead to missed opportunities, especially in high-demand roles.”

“Slow hiring cycles cause missed opportunities, especially in high-demand roles.”

“Escalating hiring costs, intense competition, and staffing commoditization are sharply reducing profitability for companies.”

Our Key Objectives

Competitive Advantage:
Guaranteed Faster Time-to-Placement.

Quality Talent Assurance Toptal-Level Vetting, Competitive Pricing.

Our strategic hiring approach is proven to reliably fill your key growth roles.

"Empower your growth with reliable, personalized staffing solutions that secure top-tier talent, accelerate hiring, and optimize cost efficiency."

TechTie What makes us unique..

At TechTie, we go beyond traditional staffing—we leverage our proprietary AI-powered platform to transform how talent is sourced, screened, and delivered. Our in-house technology is designed to intelligently extract, filter, and match candidate profiles from across the market, enabling faster, smarter hiring decisions for our clients.

Speed and Deployment: We specialize in sourcing ready-to-join candidates, significantly reducing turnaround times and ensuring swift deployment.

Dual Sourcing Strategy: In addition to market sourcing, we maintain a continuously updated internal talent database—a rich pipeline of qualified, verified professionals across industries and skill sets.

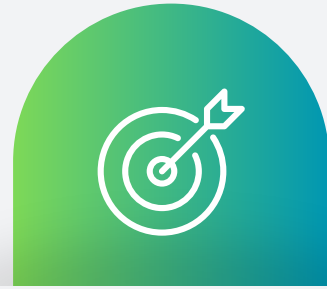

Precision & Confidence: This dual approach—AI-driven external sourcing combined with a robust internal database—allows us to consistently deliver high-quality, relevant, and up-to-date profiles, enabling our clients to hire with speed and confidence.

With our tech-first approach, we don't just promise faster delivery—we deliver the right talent, at the right time, with precision and efficiency.

The core goals of Techtie

Integration of Services: Integrated Services provides the customer with a single point of contact and accountability. Integration of services also provides opportunity for multi-skilling to optimize the labour output. In the integrated approach to engineering, housekeeping, office support services, electrical maintenance, etc., are all integrated and provided by one service provider.

Manpower: We also have subcontracted employees, including security services, delivery boys, subcontractors, and electrical maintenance workers, through strategic partners, in accordance with our self-performance model.

We categorize the services we offer as follows: ↓

Support Services 

Outsourcing Employees 

01 We Provide integrated residential and commercial complexes, including offices, logistics, IT buildings, BPO divisions, residential apartments, gated communities, villas, high-rise towers, and more.

02 MEP, front desk management, housekeeping services, gardening, security services, and office support services.

03 Marketing executives, marketing managers, male/female packing staff, loaders/unloaders, PAs, and all support staff.
